Your images

Technical details

For each image please state where it was taken, the camera and lens used, F number, shutter speed, ISO and film type if relevant, plus any additional equipment.

Image-making process

We also need to know how and why you took each picture. Was it a tricky subject to photograph? What did you have to do to capture the shot? What would you do differently if you took the picture again? **Tell us something interesting about the image-making process for each photograph!**

Please be aware we may contact you for further information.

If you would like your images to be considered for Appraisal with editor Damien Demolder, please tick here
